

DHARMESH KUMAR

Rajgarh, Rajasthan, India | +91-9509656755 | dharmeshkumar08.in@gmail.com | linkedin.com/in/dharmesh-kumar | github.com/DharmeshKumar0

PROFESSIONAL SUMMARY

Computer Science graduate (2025) with hands-on experience in full-stack web development, AI integration, and cloud fundamentals. Skilled in network protocols (TCP/IP, HTTP/HTTPS, DNS), secure authentication (OAuth 2.0, JWT), and OWASP Top 10 security principles, with practical exposure to log analysis, API security, and system troubleshooting. Seeking an entry-level role in Software Development, Cybersecurity (SOC L1 / Junior Security Analyst), IT Support, or Cloud/Network Engineering.

SKILLS

Languages: Python, JavaScript (ES6+), Java, C, SQL, HTML5/CSS3, Bash (basic)

Frontend: React, Next.js, Tailwind CSS, Redux, Shadcn UI, GSAP, Vite

Backend & Databases: Node.js, Prisma ORM, MongoDB, SQL, Google Firebase / Firestore

Security & Networking: OWASP Top 10, CIA Triad, OAuth 2.0, JWT, Secure API Design, Input Validation, TCP/IP, DNS, HTTP/HTTPS, OSI Model, Firewall Basics, Log Analysis

Cloud & DevOps: Google Cloud Platform (GCP), Firebase Cloud, IAM & Access Control, Git, GitHub, CI/CD Fundamentals

Tools: VS Code, TRAE IDE, Postman, Eclipse, Google Cloud Console

Core Competencies: REST APIs, SSR, SDLC, Agile/Scrum, Troubleshooting & Debugging, Technical Documentation, Incident Reporting

WORK EXPERIENCE

Front-End Developer Intern — CodeSoft (Remote)

Jul 2024 – Sep 2024 | Remote

- Engineered a production AI Career Coach web app using Next.js and Claude Sonnet 3.5, implementing server-side rendering for optimized, fast page delivery.
- Secured user authentication using Google Firebase OAuth 2.0 and managed real-time Firestore sessions, ensuring data integrity and preventing unauthorized access.
- Applied secure coding practices including environment-variable API key management, client/server input validation, and OWASP-aligned guidelines to prevent common vulnerabilities.
- Collaborated within a remote Agile team using Git/GitHub for version control, branching strategies, pull-request reviews, and task tracking across the full SDLC.

Web Development & Cloud Workshop Trainee — BPTRC, BKBIET, Pilani

May 2023 – Jun 2023 | Pilani, India

- Completed hands-on training in GCP fundamentals — cloud storage buckets, IAM access control, data integrity policies, and cloud security configurations.
- Built a GSAP-animated React web app with performance-optimized rendering; developed automated HTML/CSS/JS test-reporting workflows to streamline team communication.
- Diagnosed and resolved development environment configuration issues, documenting each step — an approach directly applicable to IT support and SOC ticket workflows.

PROJECTS

AI Career Coach | Next.js · Tailwind CSS · Prisma · Gemini AI · Firebase

Jan 2024

- Built a full-stack web application with server-side rendering, Prisma ORM database access, and Gemini AI integration for personalized career advice.
- Implemented role-based access control, Google Firebase OAuth authentication, and secure API route handling, ensuring only authenticated users accessed sensitive endpoints.
- Designed a responsive UI using Tailwind CSS and Shadcn UI, optimized for performance (lazy loading, caching) and targeting a 90+ Lighthouse score.

Network & Security Concepts — Self-Study Lab | TryHackMe / Personal Practice

2024 – Present

- Explored core cybersecurity concepts including the CIA Triad, OWASP Top 10, network scanning, and threat-detection fundamentals through hands-on labs.
- Practiced log analysis and alert-triage workflows, identifying anomalous patterns in simulated network logs to build SOC Level 1 monitoring skills.
- Studied OSI model layers, the TCP/IP stack, HTTP/HTTPS request-response cycles, DNS resolution, and firewall rule concepts to build a foundation for network security roles.

GSAP Animated Web Application | React · Tailwind CSS · GSAP

Jun 2023

- Developed a high-performance, cross-device animated interface using React and GSAP animation timelines, focusing on rendering consistency and accessibility.

CERTIFICATIONS & TRAINING

- Introduction to Cybersecurity — Cisco Networking Academy | Jul 2026
- Web Development Intern Certificate — CodeSoft | Jul–Sep 2024
- Cloud Computing Workshop Certificate — BPTRC, BKBIET | 2023
- Google Cybersecurity Professional Certificate — Coursera / Google | In Progress

LEADERSHIP & EXTRACURRICULAR

Technical Member — BKBIET Technical Club

Present | Pilani, India

- Recognized as a top academic performer; mentored juniors in programming fundamentals and contributed to community-service and academic initiatives.
- Configured and optimized TRAE IDE workflows within VS Code, reducing debugging cycle time by ~40% across team projects, and documented the process for onboarding new members.
- Maintained technical documentation, strengthening skills applicable to SOC reporting and IT ticketing.

EDUCATION

B.Tech. in Computer Science — Bikaner Technical University, Pilani, Rajasthan | Sep 2021 – May 2025

Coursework: Data Structures & Algorithms, Computer Networks, Operating Systems, Database Management, Cybersecurity Fundamentals
